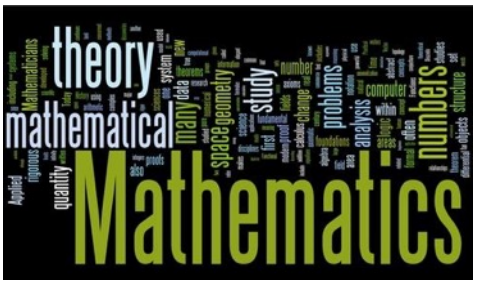
CORE SUBJECTS



When you move into Year 7 you will be given some target grades for English, Maths, Science and Modern Foreign languages. Your aim will be to meet or exceed these targets throughout your time in year 7 and 8. You will have 6 weekly assessments in all these subjects, enabling you to track your progress.

Target grades and assessment grades will be based on the GCSE grading system, meaning you will have a target grade from A* to C, (A* being the highest grade achievable and grade C being the grade you would need in order to obtain a pass in that subject).

For each of your assessments and for your final end of year 7 and end of year 8 exams, you will be given credits for the level of work you produce. A grade C would gain you 5 credits, grade B would gain you 6 credits, a grade A, 7 credits and finally you would receive 9 credits for any subjects in which you gained an A*. You will be expected to gain a minimum of 120 credits for the 3 Core subjects, Maths, English and Science plus one language, by the end of the academic year.
