# A partnership is formed between the staff, children and parents within the Reception class...

Children in our First School (Reception through to Year 4) enjoy the benefits of a nurturing environment that caters for their academic, social and moral development. Our supportive ethos helps develop your child as a whole and we pride ourselves on our high academic standards. The benefit of small class sizes, high quality teaching and an outstanding environment all support and prepare our youngest pupils for their academic careers.

Specialist teaching and the use of a Creative Curriculum helps us build upon many of the expectations of the Early Years teaching, where children learn in an environment that is stimulating and rich with creativity and imagination. Skills are identified and used as a basis for planning an exciting and enriching learning programme. Children are enthused and enjoy their learning, thus becoming more successful and confident pupils.

## Scarisbrick Hall First School **KEY POINTS**

### **THE CREATIVE CURRICULUM**

From experience we know that children can attain higher academic levels when immersed in the Creative Curriculum rather than some traditional methods. A creative approach teaches children how to use key subject related skills and then apply them to a variety of experiences – the essentials for learning and life. The Creative Curriculum allows children to become more successful, more confident and more responsible.

### **OUTSTANDING PRACTICE**

We truly believe that the key to the success of an outstanding school is the way it promotes learning as a lifelong skill. As children leave our Early Years and progress through First School, natural curiosity is combined with knowledge and each child begins to form their own natural, personal curriculum.

### **SPORT AT SCARISBRICK HALL**

Sport plays a large part in everyday life at Scarisbrick Hall School. Within the curriculum time PE provides a variety of activities to all age groups, such as: cross-country, multi-sports, gymnastics, football, rugby, netball, tennis and athletics. The availability of sport is further enhanced with our highly successful E3 program. E3 is enriching, exciting and extensive – offering activities within the school day that would not usually be available. During the year we change the program each term, and throughout each term pupils can experience activities such as: sailing or canoeing on the lake, iMac computer club, story-telling in the tower, cookery in the Home Economics room, fencing, games and puzzle clubs and den-building in the forest – to name but a few.
